

## **Bruce Swan – VP On Ice**

You can usually find me at the rink helping out during evaluations, KHC events, coaching a team or just watching minor hockey. As a parent of 6 children ranging from the age of 13-26, I have been involved in minor hockey and community sports for many years. Prior to the merger I was the President of Mavericks Hockey Association and had the honour of working with the Mavericks and Breakers in creating the Knights Hockey Club.

By profession, I am an Executive Director – Tax Incentives at KPMG for the past 2 plus years. Prior to that my career has led me to living in Toronto, Winnipeg, Melbourne Australia and Calgary.

When not volunteering for KHC, I love watching my kids at various sports including football, soccer and cheerleading. I have had the pleasure of cheering on our daughter at the world cheerleading championships, if you think hockey is competitive, you should see cheerleading, haha!!! I would have to say one of my favourite things about volunteering with KHC is seeing the kids excel and grow over the years. Seeing kids that I have coached, graduating high school or university still stop and talk to me when I see them is very rewarding. My hope is that every player that plays this year, plays again next year.

I am looking forward to the upcoming season and seeing all the happy faces at the rink.
