

Lisa Rosier - Ice Scheduler & Off Ice Operations

My name is Lisa Rosier, for those of you who don't know me, I am the Ice Scheduler & Off Ice Operations for the Knights Hockey Club. I have been involved with minor hockey in Calgary for over 18 years in various roles from team manager, coordinator, board member to my current position with the Knights Hockey Club. Prior to my involvement with community hockey, I worked in the Oil & Gas industry at TC Energy for 15 years.

After having children, I left my career to focus on family. I have 2 sons who enjoy playing hockey and other sports including baseball, basketball, curling and golf. As you can see, our kids kept us very busy and involved within the community. As you know, our calendars are always full and there's never a dull moment when kids are involved in sports. Even though my boys have aged out of community, they continue to play hockey in men's league and the AJHL. I still love going to watch their games and cheer them on.

For me one of the most rewarding parts of being involved with minor hockey and community sports is seeing the smiles on the players faces, the friendships and the special memories that last a lifetime. One thing that stands out to me is how the Knights Hockey Club stresses the importance of community spirit, family and mental health wellness for all. I feel very fortunate to be part of the KHC!!
