

Corey Severtson – VP Safety and Governance

I am Corey Severtson and I have been involved in minor hockey for more than 14 years. I have 3 boys from the age of 15 to 23. I have filled many volunteer roles in minor hockey in Calgary, I have been a manager, assistant coach, head coach, and various roles on the BOD. I have been in the role of Safety and Governance for the past 3 years which has been challenging to put it nicely with the current issues we are dealing with. In this role my focus is to ensure all our players are in a safe environment in which they can grow as athletes and people by ensuring they are in a safe place to compete and develop.

Professionally, I have been in the food science industry for more than 20 years after graduating from the U of C. Currently, I am referred to as the “Avocado Man” as I run 5 avocado warehouses in Canada and the Western US.

When I am not volunteering with KHC I enjoy playing a variety of sports and volunteering for other groups such as Cardel Rec South BOD, The First Shift teaching new Canadian kids how to play hockey and on ice official for the Hockey Marathon raising money for the Children’s Hospital.
